Principles

This policy details the rules governing photography and recording videos at St Mary's Catholic Primary School, the distribution of photographs and videos, and their publication on the internet.

Taking photographs and video images of children's achievements and activities is an excellent way of capturing a memory and promoting successes. This policy document explains the school's requirement to obtain parental permission (where necessary) while taking such images, and the safeguards in place to ensure anonymity (wherever possible) in their usage.

The policy applies to staff, governors, parents/carers, visitors and wider family members, and is founded on four main principles:

- **Safety**
The overriding priority is to ensure that photography does not lead, either directly or indirectly, to anything that may potentially endanger the safety of the children at school.
- **Privacy**
We believe that every child and parent/carer is entitled to their own privacy, and can therefore choose not to feature in photographs or videos recorded at school.
- **Projecting the Right Image**
Photographs taken at school should not cause embarrassment to the school, the children or the staff.

Sharing Children's Achievements

It is natural for every parent to want to share their children's activities and achievements at school with friends and family. This school encourages this as much as possible, while keeping this in balance with the above principles. Parents/carers are reminded at every school event about expectations regarding the use of photos: they are for personal use and not to be published on social media.

Consent

When a child joins the school, their parent/carer is asked for consent for the child to appear in photos used by the school (and in the local press). The school encourages all parents/carers to provide consent, as it enables the school to include all the children in depictions of school life, however, we respect the parent/carer's right to refuse consent. Parents/carers may, in writing to the headteacher, withdraw consent at any time, or grant consent if they had previously declined.

School Website and Social Media

Any material published to the website must be assessed to ensure it meets the following safeguarding rules:

1. It must not feature any child whose parent/carer has not given consent.
2. It must not offer any means of identifying a child by name*.
3. It must not in any way embarrass the school, children or staff involved.

Photos and videos intended for the school website should be taken either by a member of staff, or a person who has been granted permission by the headteacher.

** If a child received an individual award (e.g. a maths competition entered through school) and the school wish to share their achievement including a photo on the school website with the child's name, parental consent will be sought before naming the child.*

Any material published to the school's website must be assessed to ensure it meets the following safeguarding rules:

1. It must not offer any means of identifying a child (be this visually, by name or audibly).
2. It must not in any way embarrass the school, children or staff.

Photography at school events by parents/carers

Parents/carers are permitted to take photographs and record videos at school events, as long as they agree to the conditions described in this policy.

Examples of events are:

- Christmas/Nativity Plays
- Sports Day
- Summer Fair
- Class Assemblies
- Y6 Leavers' Assembly

At these events, photos may only be taken at the location of the event, most of which take place in the school hall. Sports day takes place on the field. A reminder will be given at the start of each event reiterating the message that photos are not to be uploaded to any website/social networking sites or apps, and are for personal use only.

It is not permitted to take photos in classrooms or elsewhere in the school unless explicitly authorised by the headteacher. Parents/carers cannot use cameras when helping on school trips to take pictures of children. Photos of staff should only be taken when they are in a picture with other children such as giving a speech, or, for example, conducting the choir. Permission is not granted to take pictures of staff in any other situation.

If a parent/carer does not want their child to be photographed, options will be discussed with the parents and they have the right to withdraw their child from an event. There may be occasions when the child will be accommodated elsewhere in the school. Parents/carers who do not wish their child to be photographed will be invited to meet with the class teacher at the beginning of term to inform the teacher directly of their wishes.

Outside Designated Events

It is not permitted to use a camera on school premises **at any time** outside the designated events above, except for events where parents/carers are responsible for the supervision of their child e.g. school fairs, or it has been explicitly authorised by the headteacher.

Distribution and Publication of Photos and Videos

Photos taken at these events (of children and/or staff) are for the parents/carers' personal use only. They **must not** be published on **any** internet website. This includes Facebook, Twitter, Instagram, YouTube and all other social media sites. The reason for this restriction is that it is not possible for individual parents/carers to ensure that all three of the safeguarding rules described above are adhered to at the time of publication or in the future. Parents/carers will be reminded of the expectations regarding the use of photography and filming at the start of any event in school.

Withdrawal of Permission

The expectation is that parents/carers will cooperate with this policy as it is not reasonable for the school to 'police' every event. However, if failure to adhere to these conditions is drawn to the school's notice it may, at the discretion of the headteacher, lead to withdrawal of permission to use a camera at future events. The headteacher may also refer the matter to the police.

External Photographers

Terms for external photographers, such as local newspaper photographers, must be agreed in advance with the headteacher. These are considered on a case-by-case basis, and must conform to the safeguarding rules described above.

Rules for children

- Children must not take any photographs or video on the school site using personal cameras at any time unless explicitly authorised by the headteacher.
- Children may take photos or video using school equipment under the supervision of staff or other authorised persons.
- Children must not upload any photographs taken within the school premises (school buildings, playground, field, etc.) on to the internet or any social media sites, e.g. Facebook, Twitter, Instagram, YouTube, etc.

Rules for Staff

- Staff may take photos and video anywhere within the school for the purposes indicated on the parental consent form.
- These may be published on the school website if they conform to the safeguarding rules described above.
- Photographs must not be published on any other internet or non-school approved social media site.

- Photographs may be shared with other members of staff to support teaching work.
- Photographs must not be shared with friends and family.

Members of staff who are also parents/carers of children at the school are permitted to take photographs at school events under the terms described in 'Photography at school events by parents/carers'

Scope

- This policy does not apply to events such as the school fairs, which are classed as public events.

Annual Consent Forms

'Growing, loving and learning in the arms of Mary'

Photography and use of images

Throughout the year pupils are photographed / videoed in connection with school plays, concerts, prize giving, residential trips, educational visits, performances and sporting events. Photographs / videos taken in school to record activities and events and may be used for displays or put on the school website. Pupils work or photographs may also be published on the school website.

Publicity photography is helpful in publicising the success of the school and in promoting educational initiatives. From time to time members of the press and media are also invited into schools to cover events celebrating success. (A full copy of the photographic policy can be found on the school website).

Local Visits

During the year we may take children off site e.g. walk to the local park, swimming baths, Sunderland City Centre. We request permission to take your child out on such visits and you will be advised beforehand of the dates. A separate consent form will be issued for residential visits, visits that incur a cost and visits that last a whole day.

E-Safety

Permission must be granted for your child to have access to use the Internet and other ICT facilities at school. School will take every reasonable precaution to keep pupils safe and to prevent pupils from accessing inappropriate materials. These steps include using a filtered Internet service, secure access to email, employing appropriate teaching practice and teaching e-safety skills to pupils. However ultimately the school cannot be held responsible for the nature and content of materials accessed through the Internet and mobile technologies, The school may contact you if there are concerns about your son/daughter's e-safety or e-behaviour. I hope you will support the school by promoting safe use of the Internet and digital technology at home and will inform the school if you have any concerns over your child's e-safety. (A full copy of the E-Safety Policy is available on the school website).
